

AuthentiGuard Counterfeiting Detection Solution

This Android /IOS based Software APP allows companies to print a security “Mark” on their products that can only be read and confirmed by security smart phone APP.

Hidden Prism

1. An image or code is hidden in the artwork of your packaging or produce identifier
2. Image cannot be copied, scanned or duplicated with a high res photo or scanners
3. Only the **DSS** Smart Phone AA allows user to reveal hidden image
